Rev. 1.1 11.19.2009 Moni Melman

Welcome to Tooki !

Tooki by NAV-TV is a Bluetooth phone integration system designed specifically for your phone-ready Audi vehicle.

When used properly, Tooki establishes a wireless Bluetooth link between the Audi MMI radio and your mobile phone, resulting in a hands-free operation of your phone.

Loaded with key features such as Phone book synchronization (phone dependent), Privacy mode, console and steering wheel controls, MMI and instrument cluster displays and noise-canceling technology, Tooki allows for a safer driving experience while keeping the driver connected to his wireless world.

The Tooki is an extremely sophisticated product, therefore it is strongly advised that you make yourself familiar with your Tooki system and read the instructions in this manual before operating the system.

For more information, visit www.nav-tv.com

Legend

The following legend will ease your reading this manual:

-  Radio operation, button press
-  Rotate, then press the radio selector knob
-  Mobile phone operation, such as pairing
-  Operation not supported by Tooki

1. Press **TEL** on MMI Radio.

Telephone - Tooki...

2. **“Telephone - Tooki...”** and no signal strength indicates no phone connected.

3. Start the pairing procedure on your mobile phone. Make sure the Bluetooth feature is turned on. Consult your phone’s manual for phone-specific pairing procedures.

4. Once your mobile phone discovers **Tooki xxxx** (last 8 digits will vary), select and pair **Tooki**.

5. When prompted for a passkey, enter **6888** on your mobile phone.

Telephone - AT&T

6. Once pairing is complete, you should see your network provider’s name and signal strength indicator on the MMI Radio.

(Note that some telephones will not display a signal strength or network provider when connected.)

7. You may pair up to 5 different mobile phones. For information on phone selection, see the CONNECTING section.

8. Note that once a phone is paired, you should allow the Tooki to automatically connect to it. Initiating the connection from the phone may cause unreliable operation.

Note: the following phones require a special pairing code to be dialed from the radio prior to pairing. Please enter the code that matches your phone, then press .

| | |
|------------------------------|---------------------------------|
| 3*330033*1 - Headset profile | 3*330033*5 - Samsung A9xx |
| 3*330033*2 - Disable Sync | 3*330033*6 - Samsung D500 |
| 3*330033*3 - LG U8360 | 3*330033*7 - Samsung Z300, Z500 |
| 3*330033*4 - Sagem | 3*330033*8 - Samsung Z310 |

Connecting

If only one phone is paired, Tooki will attempt to connect to this phone as long as the MMI radio is active.

Up to 5 phones may be paired and selected.

If more than one phone is paired, Tooki will attempt to connect to ANY of the paired phones. Last connected phone has a priority over other paired phones, but since different phones may have different Bluetooth latencies, it is hard to predict which phone will be connected if more than one phone is present within range of Tooki. You may manually connect to a paired phone following this procedure:

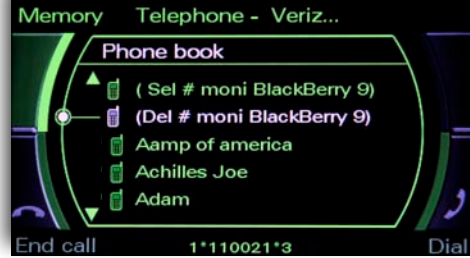

Selecting a paired phone:

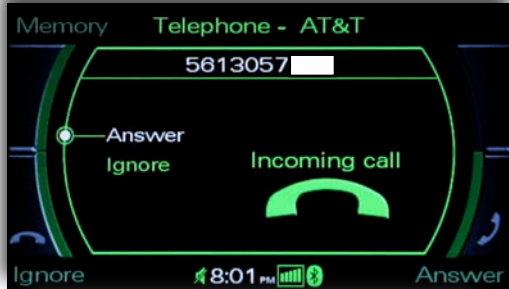

1. Press **TEL**, Press the **MEMORY** Soft button, Select **Phone book**
2. The currently connected phone (if any) will have a “#” in front of its name.
3. Select the phone you wish to connect. In this example, Nav-TV Host, a Blackberry 8330m and moni BlackBerry 9 are paired, and we are selecting BlackBerry 8330m.
4. Press the **Dial**  button on the MMI radio.
5. Tooki will display **Dialing: Selecting...** and will attempt to connect to the phone selected. Radio will resume normal operation within a few seconds.

Deleting a paired phone:

1. Highlight **(Del Phonename)**, press in on MMI knob or **Dial** 

NOTE: Deletion time depends on the phonebook size.

A received call will cause the following:

1. Mute the radio and generate a ring tone.
2. Display the caller ID (If available) and **Incoming call** on the MMI screen and instrument cluster.

To answer a call:

1. Press the Answer  soft button, or
2. Highlight **Answer** and press the MMI Knob in, or
3. Press the multi-mode steering wheel selector IN

To answer a second call (Call Waiting):

Currently call waiting is not supported and must be performed via the mobile phone.

Placing Calls

To place a call:

1. Press **TEL**, then rotate the MMI knob to each desired digit followed by a knob press.
2. when completed, press **Dial**  or select **OK** followed by a knob press.

You may also dial numbers stored under the following:

Phone book (See “Phone book” section)

Dialed Calls (Last number dialed)

Both options are also available via the steering wheel buttons and the Instrument cluster display:

Most phones allow the user to dial, answer and end calls via the phone buttons

It is often convenient to switch between hands-free operation and normal phone use.

Tooki allows for a quick Privacy Mode:

Press **TEL**

Select **Options**

Select ***Switch off microphone*** and press the knob to confirm, use your mobile phone as usual.

To switch back to Hands-Free mode:

Press **TEL**

Select **Options**

Select ***Switch on microphone***

Note 1: The microphone does not actually mute, rather the call transfers to the phone itself!

Note 2: On some telephones (particularly Nokia) Privacy mode will also disconnect the phone from the Tooki.

Phonebook

⊘ **NOTE:** The Phonebook feature is not supported by all phones. Please refer to www.nav-tv.com for an up-to-date phone compatibility list and software updates.

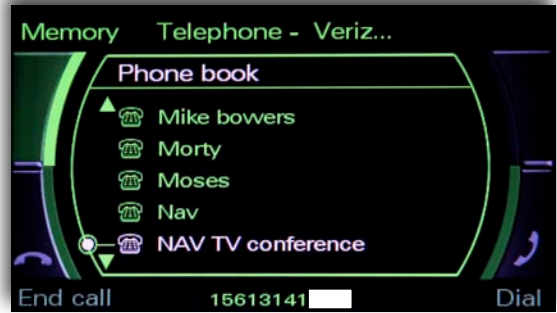

NOTE: Phonebooks that have a large number of contacts can take quite a long time to synchronize, please be patient. During Phonebook synchronization, attempts to pair or delete a phone will not operate reliably, and the Phonebook screen may display "(Please pair)" instead of the phone's name(s).

1. Press **TEL**, Press the **MEMORY** soft button, Select **Phone book**
2. Rotate the knob right or left to select your entry.
(Note that you can also use the "**Find**" feature to look for a specific entry.)
3. Press the knob and press **Dial**  to place a call.

You can use the steering wheel controls / instrument cluster display as well.

⊘ **NOTE:** The Phonebook can not be modified, as it is stored in your phone. However, favorite numbers could be stored at or transferred to the internal **DIRECTORY**.

Please follow the on-screen instructions for DIRECTORY usage.

Tooki can be updated by the user via a Bluetooth-enabled laptop.

Latest software updates and instructions are available at: www.nav-tv.com
