Mercedes Benz NTG5+ MOST150 to 12-channel Analog & Digital sound processor
NTV-KIT871

WARNING: Do not connect any RCA cables to the ZEN-M interface or additional processors prior to properly grounding aftermarket amplifier(s)!
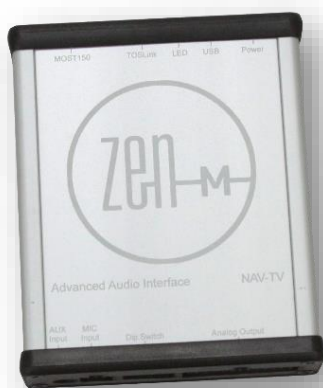

Overview

The NAV-TV ZEN-M processor seamlessly converts late model Mercedes factory MOST-150 audio bus to 12-channel analog RCA and TOSLink output. Adding aftermarket amplifiers to the OE NTG5, 5.1, 5.2 or 5.5 system has never been so simple and seamless. This kit integrates with the OEM M.O.S.T.® bus to retain volume control, full fade and balance (analog only), treble, mid-range, bass control & Bluetooth voice calls with no external speaker (true OEM integration). *NOTE: vehicles not equipped with a factory amplified system must be flashed with NAV-TV's ZEN-M-PRG (NTV-KIT866, sold separately) prior to installation. Vehicles equipped with an OEM amplifier do not need to be flashed.*

Any 2014+	Mercedes	W447	V
Any 2015+	Mercedes	X222	Maybach

ZEN-M Installation

1. If this vehicle has a factory amplifier, it must be removed and the ZEN-M can be installed into its place. If this vehicle is not amplified from factory, install the ZEN-M behind the radio.
2. Connect the following wires from the provided **power harness**:

Wire Side

ZEN-M pin	Color	To vehicle:
1	Yellow	12v (+) *Constant*
3	Violet	*--Reserved, NOT USED--*
4	Black	Ground (-)
6	Blue	12v (+) remote output*

*This remote wire <u>must</u> be used for aftermarket amplifier remote for proper functionality. **If installing more than one amplifier/DSP, a relay must be used for reliable turn-on (500mA max).**

3. **Before connecting power to the ZEN-M,** adjust dip-switch settings for the desired options:

Position	Time Alignment	Attenuation	TOSLink DownMix*	Loudness	Vehicle Settings	
Position	DIP 1	DIP 2	DIP 3	DIP 4*	DIP 5	DIP 6
UP (off)	*Front Row*	Full Scale output (0 dB)	*DownMix ON*	Loudness OFF	*OFF*	*OFF*
DOWN (on)	*Driver Focused*	-12 dB output	*DownMix OFF*	Loudness ON	*OFF*	*OFF*

NOTE: DownMix ON mixes vocals from center channel into Front and Rear L+R output channels.

4. If using analog RCAs for signal to the amplifier, connect according to the reference chart below.
   WARNING: Do not connect RCA cables to this interface until all amplifiers/external processors are properly grounded. Failure to do this may cause damage to the interface and VOID the warranty!
1	2	3	4	5	6	7	8	9	10	11	12
Left Front	Right Front	Left Front	Right Front	Left Front	Right Front	Left Rear Door	Right Rear Door	Left Rear Center	Right Rear Center	Center	Sub

5. If using TOSLink for signal to the amplifier, connect the cable to the TOSLink port shown on page 2.
   NOTE: both Analog and Digital output sound simultaneously, regardless of which type is used.
6. Connect the provided **MOST Fiber Cable** from the (previously removed) amplifier, or from the radio's fiber port to the MOST port on the ZEN-M. *NOTE: if fiber already exists at the head unit (for SAT radio, etc), you must add the provided MOST fiber cable into the OEM MOST loop (see next page).*

ZEN-M General Installation Notes

- This interface can be installed in vehicles with or without an amplifier & with or without MOST fiber optic presently installed.
    1. *Vehicles with fiber amplifier: the amplifier must be removed. Connect the OEM fiber previously connected to the amp, directly into the ZEN-M.*
    2. *Vehicles without OEM amplifier or MOST fiber: Use the supplied fiber optic extension and connect from the fiber port behind the radio to the MOST fiber port on the ZEN-M.* NOTE: If the vehicle is not equipped with an OEM amplifier, you must program the system for external amplifier for the ZEN-M to operate properly. Use NAV-TV's ZEN-M-PRG programmer (NTV-KIT866 sold separately).
    3. *Vehicles without amplifier **but still equipped with fiber*:** Disconnect the fiber from the radio, disassemble the fiber coupler and route the provided MOST extension into the factory MOST loop like shown below (to continue proper MOST data flow):*

        *NOTE: in this scenario, the vehicle still must be programmed for external amp (see red note above).

- **Tuning tips:**
    1. Before beginning tuning process (especially with external EQ/Processors), set Bass & Treble on the head unit for each source to flat (0).
    2. *Begin with amplifier/EQ gains all the way **down.***
    3. *With dynamic music playing, adjust the radio volume to maximum.*
    4. *Adjust the amplifier/EQ gains to desired maximum level.*
- For Mercedes, there is no separate dedicated subwoofer control.
- *NOTE:* The CENTER Channel in some Mercedes vehicles is a DUAL-VOICE coil speaker – one coil is connected to the factory amp the other coil connects to the OEM EMBRACE module – see **page 9** for wiring diagram.
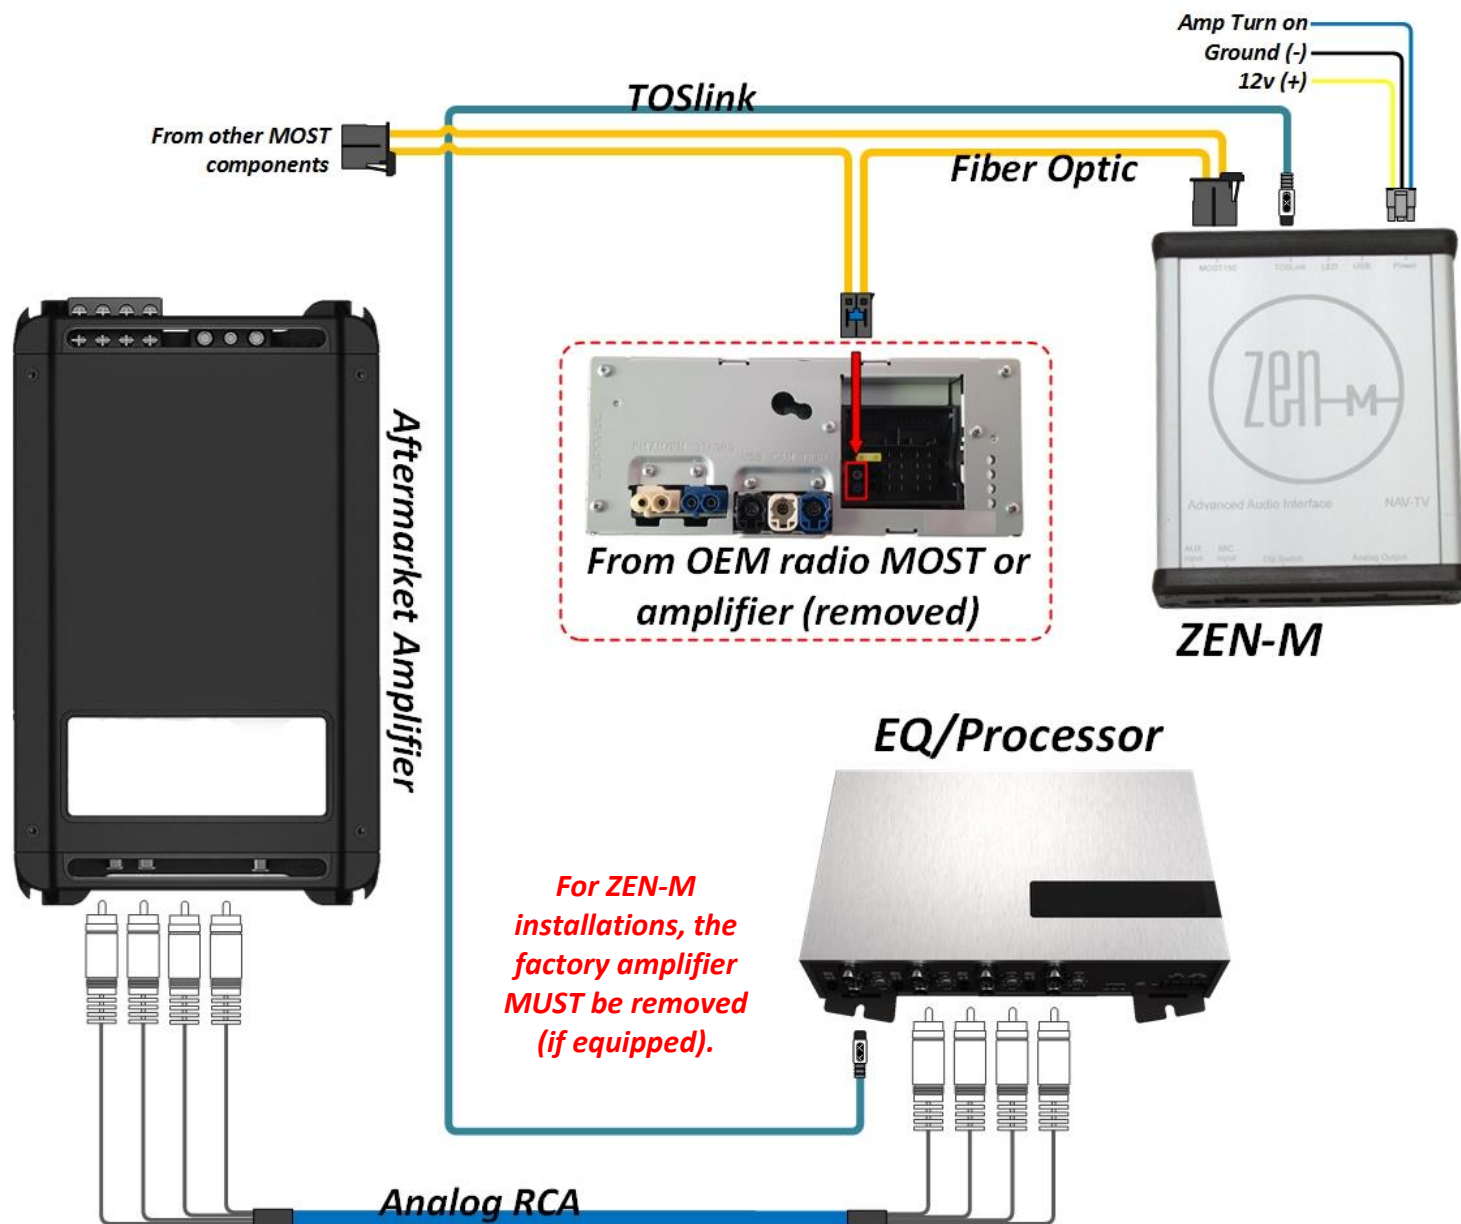

Multi-Color LED Status Indication

LED Status	Indication
Solid Red	MOST Active
Violet	MOST traffic commands
Blinking Red	*Peaking* (maximum digital signal level achieved)
Blinking Blue	PC Link with app (future use)

ZEN-M System Layout (analog)

For ZEN-M installations, the factory amplifier MUST be removed (if equipped).

ZEN-M System Layout (digital TOSLink)

Mercedes Benz options for audio control

When flashing the vehicle for fiber (if not factory fiber or amp-equipped) using the NAV-TV ZEN-M-PRG (KIT866), the OEM Mercedes sound system will allow Bass, Treble and Midrange controls.

- There is no separate subwoofer controller for Mercedes-Benz.

| ZEN DownMix Scenario Examples							
Source Signal	DownMix	TOSLink Output	Analog FRONT OUT	Analog SIDE OUT (7,8)	Analog REAR OUT (9,10)	Center Channel OUT	SUB OUT
2 Channel (Music)	ON	Stereo	Stereo Front	Stereo Rear	Stereo Rear	Muted	Mono (L+R)
2 Channel (Music)	OFF	Stereo Front	Stereo Front	Stereo Rear	Stereo Rear	Center	Mono (L+R)
5.1 Surround	ON	Mixed Stereo*	Front + Center	Rear + Center	Rear + Center	Muted	Mono (L+R)
5.1 Surround	OFF	Stereo Front	Stereo Front	Rear Back Surround	Rear Back Surround	Center	LFE**
7.1 Surround	ON	Mixed Stereo*	Front + Center	Rear + Center	Rear + Center	Muted	Mono (L+R)
7.1 Surround	OFF	Stereo Front	Stereo Front	Side Surround	Rear Back Surround	Center	LFE**

*Mixed Stereo: (Left = LeftFront + Center + LeftSurround + LFE), (Right = RightFront + Center + RightSurround + LFE)
**LFE: Low Frequency Effects: Surround subwoofer output.

Mercedes OEM Center Channel schematic

- The center channel speaker in all NTG5+ Mercedes vehicles are a Dual-Voice Coil speaker. If replaced, *and not reconnected to the EMBRACE module (wires), you will lose audio from the emergency telematics system.* Use the diagram here to connect a secondary speaker (or use the OE speaker) directly to the EMBRACE module (Gray/Red +, Gray -).

ZEN-M Technical Specifications

Hardware & Software	
Current HW version:	--1r0--
Current SW version:	ZEN-M-1.2-4-20-18
Compatible SW (update) OS:	Windows 7 (64 bit), 8, 10
INPUT	
Digital Input	MOST 150 Fiber Optic
OUTPUT	
Digital Outputs:	TOSLink
Digital Outputs supported:	24bit/48kHz
Frequency Response (digital):	18Hz – 24kHz
Analog Outputs:	12 channels (RCA)
Output Voltage *Peak:*	6v
Output Voltage *RMS:*	2.1v
Analog Output Type:	Single-Ended
S/N Ratio (analog):	123dB
Frequency Response (analog):	18Hz – 24kHz
THD+N @ -1dBFS	-94dB
DAC	48kHz 32bit
DSP	128bit Floating Point
Delay (Time Alignment)	Selectable
Power Supply	
Current Consumption Stand-by	<1 mA
Current Consumption Operational	350 mA MAX
Operational Voltage	7V – 20V DC
Amp Turn-On Output	Automatic
Amp Turn-On Voltage	V-batt
Amp Turn-On Current Limitation	500mA
Other
