### NOTES:

- Despite 3 different SKU's, hardware/firmware for all 3 kits are exactly the same – only the T-harness is what changes (and GVIF cable for LEX18)
- ALL kits have HDMI input built-in, no need for KIT800 for HDMI. Kits include RCA audio out (to pass audio from HDMI source to factory AUX input)
- GVIF-LEX13 and GVIF-LEX15 are plug & play. GVIF-LEX18 requires tapping (2x) CAN wires behind the radio in addition to supplied T-Harness
