The TCR-RAM Harness (Tailgate-Camera Replacement) kit easily adds an aftermarket camera to the OEM reverse camera harness on a truck where a topper has been added, or the bed has been removed. Built-in line with this harness is a composite-differential converter to gain you the best possible quality signal (and OEM-proper) signal to the screen.

This kit includes a 5" piece of industrial, waterproof heatshink tubing to add over the RCA/power connections once complete.

Car Radio Versions

8.4" uConnect 8.4AN(RA4) or 8.4A(RA3) (1-piece)
