The RGB-GM204 harness interfaces a backup camera and additional video input to the factory screen in select GM vehicles. This install requires disassembly of the factory radio and should only be performed by a professional.

**NOTE: This harness must be combined with [RGBv2 \(KIT885\)](#) for full functionality. The RGBv2 is a universal (RGS conversion) interface, but when combined with vehicle specific T-Harnesses, make the installation simple for select vehicles.**
