NAV-TV's ZEN-H processor seamlessly allows aftermarket amplifiers to be added to the factory Harley headunit via its low level (8 channel) analog RCAs @5V RMS. This plug & play kit integrates with various OEM data networks to retain, chimes, volume control, fader/balance and EQ Presets (for true OEM integration.)

**Note:** This item is currently not in stock. We are taking fully paid pre-orders, and this interface will be shipped in the order received. If your Zen is not shipped by March 28th you may request a full refund, however, if you still wish to order the Zen, you will lose your place in line.
