

ZEN-H PRO

Price: **\$749.00**

 manufacturer
NAV-TV

 ID SKU NTV-KIT1022

 weight
4.00 Lbs

 market
USA

NAV-TV's ZEN-H processor seamlessly allows aftermarket amplifiers to be added to the factory Harley headunit via its low level (8 channel) analog RCAs. This plug & play kit integrates with the OEM data networks to retain, chimes, volume control, full fade and balance, treble, mid-range and bass control (for true OEM integration.)

The Pro version has a full professional grade 8-channel DSP built in. Features include:

1. Time alignment
2. Phase inversion
3. Crossover selection; Butterworth, Bessel, Linkwitz-Riley. High-pass, Low-pass and pass.
4. Gain control
5. Master EQ
6. Channel EQ

Note: this item is currently not in stock. Due to the incredible demand and our limited production capability, we are taking fully paid pre-orders, and this interface will be shipped in the order received. If your Zen is not shipped by March 28th you may request a refund, however, if you still wish to order the Zen, you will lose your place in line.

Car Radio Versions

Harley-Davidson
