The Volvo Cam kit adds an aftermarket back up camera to the factory 6.5" screen in select Volvo vehicles. This installation requires no cutting of any factory wires and is fully Plug & Play behind the media screen. Because of the resolution requirements of the Volvo screen, this kit includes the super-high quality [Camera 6](#) flush-mount camera.

**NOTE: Due to the typical variances in Volvo's CAN network, NAV-TV recommends this install be performed at a shop with a laptop with internet access in case the software requires adjustment.**
