The NTX54-Ford system interfaces Garmin's popular navigation system into select Ford vehicles equipped with the 8" OEM My Ford Touch media system. Disassembly of the factory Ford LCD is required and it is recommended that only a professional attempts this install. All factory Ford touch functions are used for the navigation control and this interface allows for an additional AUX video input as well as a backup camera port.

Car Radio Versions

8" My Ford Touch (SYNC 2)
