DR650S-2CH

The BlackVue DR650S Series is the ultimate in Cloud dashcam technology, featuring remote Live View capability. The DR650S-2CH is a dual-channel (front + rear) dashcam that combines performance and elegance. Although including Wi-Fi, GPS, impact and motion detection as well as Cloud connectivity, the DR650S-2CH sits elegantly under the windshield, behind the rearview mirror, without obstructing the driver's field of view.

Dual-channel Cloud dashcam

Full HD 1080p (front) and HD 720p (rear) @30fps
The DR650S-2CH records fluid videos of the front and back of your car at a 129° angle of view.
Check on your car from anywhere, anytime with the free Over the Cloud add-on service.

Built-in Impact & Motion Detection

Built-in impact and motion detection enable your BlackVue to switch between 3 different recording modes (Normal/Event/Parking) automatically depending on the circumstances.
Videos files are marked accordingly so that you can easily find relevant ones with the BlackVue Viewer. Loop recording: Your BlackVue automatically writes over the oldest files when the memory is full.

BlackVue App (iOS, Android) and Viewer (Windows/Mac)

Both the BlackVue App and Viewer are free to download and use.They let you easily change your BlackVue configuration settings and browse through your videos in an intuitive way. With the BlackVue App, connect to your BlackVue in Wi-Fi to access files and check realtime Live View for easy setup of your dashcam.

SLEEK DESIGN AND CONTROLS

BlackVue DR650's stealthy award-winning design (*) incorporates easy access to useful functions. The proximity sensor lets you toggle audio recording ON and OFF by simply waving your hand in front of it, while the Wi-Fi button can be used to turn Wi-Fi ON/OFF (short press) or format the microSD card (hold button 10 seconds). All actions are confirmed by a voice prompt.

(*) The DR650S Series inherits the design of the DR650GW-2CH, which received a Silver A'Design Award in 2016.

Built-in Wi-Fi and GPS

The GPS adds geolocation and speed data to your videos.With Wi-Fi, connect to your BlackVue with a smartphone or tablet. Wi-Fi also lets your BlackVue connect to BlackVue Over the Cloud via any home or mobile Wi-Fi hotspot.

BlackVue Over the Cloud

Connect to your BlackVue anytime, from anywhere in the world with BlackVue Over the Cloud. Enjoy **remote Live View** and **Push Notifications** to your phone. **Back up** important videos to the free Cloud storage. **Play and download** videos from your dashcam's memory or the Cloud from anywhere. Enjoy **Two-way Voice Communication** with the driver from the app through the BlackVue's integrated speaker and mic. Check the BlackVue Over the Cloud page for more information

TAMPER-PROOF CASE (OPTIONAL)

The BlackVue Tamper-Proof Case is a security accessory for BlackVue DR650S Series dashcams. It blocks physical access to the microSD card slot, and prevents unplugging the power and coaxial cables, thus highly reducing risks of data tampering.

Intelligent Parking Mode monitoring

With optional Power Magic Pro or Power Magic Battery Pack

Rest easy, knowing that your car is being monitored while you are away.
BlackVue automatically switches to Parking Mode to monitor your parked vehicle, but only writes to the memory card when something happens (motion or impact detected), which has two benefits:

- Less chance for important files to be overwritten during long Parking Mode sessions.
- Extended memory card lifespan in the long run.

Additionally, the DR650S Series features Voice Notifications in case of Parking Mode Event recordings. Upon switching from Parking to Normal Mode, your BlackVue will alert you if an Event was recorded while your vehicle was parked. This way, you can check the recordings right away and back up important files to your phone or the Cloud if necessary. It might also alert you of possible damage to your vehicle that you did not notice at first.
