The NNG-JEEP GC kit interfaces the widely-used ***Nav N GO©*** powered navigation system into select Jeep Grand Cherokee vehicles equipped with the 5" RA2 radio. Disassembly of the factory Jeep LCD is required and it is recommended that only a professional attempts this install. All factory Jeep touch functions are used for the navigation control. Additionally, this interface allows for a backup camera to be added with no additional parts.

If the vehicle is equipped with the premium sound system, this kit is NOT compatible. Compatibile RA2 radios will have heat-sinks on the back side.

Navigation add-on type: OEM LCD modification (ribbon conversion)

Plug & Play: No (must connect one wire if vehicle is equipped with OEM RVC)

Activation: Provided push button switch

Video Inputs: 2 (1 AUX & 1 RVC)

Audio Inputs: 1 pair aux

Car Radio Versions

5" uConnect RA2 (1 piece)
