The RGB-PCM3.1N interfaces 2 video inputs including a backup camera with dynamic guidelines to the factory touch screen radio in select Porsches equipped with the PCM3.1 radio. This kit connects behind the radio following a radio modification. With an additional adapter, this unit is capable of interfacing an HDMI input to the OEM screen as well (KIT800 required).

-- Requires disassembly of the radio --

Note1: Opening the radio to install this kit will void that radio's warranty.

Note2: The internal components of this radio are extremely delicate, and the installation of this kit may damage the radio or the interface itself. By purchasing this kit, the customer agrees to take all responsibility for any damage caused to the radio or the interface due to removal, disassembly or installation.

Nav-TV strongly recommends sending the radio for a modification.
