Price: **\$599.00**

 manufacturer
NAV-TV

 SKU NTV-KIT804

 weight
2.00 Lbs

 market
USA, Rest of
World, Europe

 UPC/EAN
00635510693550

The BMW-EVO kit interfaces 2 video inputs (Backup camera & one extra composite video input, that can be used for front view camera or any other composite video source) to the factory media screen in select 2017 BMWs with the NEW GUI (NON-TOUCH SCREEN). This interface generates steering-based guidelines while in reverse for added convenience. With an additional adapter, this unit is capable of interfacing an HDMI input to the OEM screen as well (KIT800 required).

NOTE: Although not absolutely essential, the LVDS Extension cables (NTV-CAB122 for 7 series or NTV-CAB121 for all other BMWs) are extremely useful and recommended to simplify the installation.

NOTE: the touch-screen models with this OEM system are not compatible.

Connection Type: OEM Video cable interception

Plug & Play: Yes

Activation: CAN or wire trigger & OEM button (aux vid)

Video Inputs: 2 composite (1 + 1 rear cam), 1 HDMI input [\(requires adapter\)](#)

Video Outputs: None

Audio Inputs: None

Audio Outputs: None

Car Radio Versions

2016+ BMW EVO (non-touch)

BMW-EVO Compatibility Chart
