BLACKVUE DR900X Plus - 2 Channel (32GB)

Price: **$489.99**

manufacturer
NAV-TV

SKU NTV-KIT981P

weight
2.00 Lbs

Discover the 4K difference

4K in a dashcam is not a gimmick. It is a game-changer.
It is not about playing videos on a giant screen–although you could do that too. It’s about providing video proof.
A dashcam is only as good as its ability to capture crucial details–usually license plate numbers.
The 8-megapixel 4K UHD sensor does just that by capturing 4 times as many pixels as in Full HD.
And with its fast shutter speed, details are frozen in place.
Just pause and zoom in.

Capture everything front and rear■

Front camera: 8 megapixels CMOS sensor recording in 4K Ultra High Definition (3840×2160) at 30FPS.
Rear camera: 2.1 megapixels Sony STARVIS™ recording in Full HD (1920×1080) at 30FPS.
The front camera’s ultra-wide 162-degree angle takes full advantage of the 4K UHD resolution. The rear camera records in Full HD at a 139-degree angle with outstanding low-light sensitivity.
Native Parking Mode with built-in voltage monitor to protect your vehicle battery (hardwiring cable included).

With the free BlackVue Cloud service, check on your car from anywhere, anytime.
