

**BLACKVUE
CM100GLTE**

Price: **\$169.00**

 manufacturer
NAV-TV

 SKU NTV-KIT990G

 weight
2.00 Lbs

External 4G LTE Module

The CM100GLTE connects to your compatible BlackVue X Series dashcam to provide easy 4G LTE connectivity. All you need is a valid Nano SIM card. The CM100LTE connects via the USB port of your dashcam. Your BlackVue powers the module and automatically accesses the Cloud when the module is plugged in.

Note: When purchasing a SIM card from your mobile carrier, make sure that the card is **4G** (not 5G) and is set up for Data-Only (not Voice + Data.) Cellular service is also available directly through BlackVue when using the BlackVue SIM card.

Not compatible with DR590X Series.
