

## ZEN-V and OBD Programmer Bundle

Price: **\$1300.00**

 manufacturer  
NAV-TV

 SKU NTV-KIT997

 weight  
10.00 Lbs

 market  
USA, Rest of  
World, Europe

 UPC/EAN  
00635510695547

The ZEN-V allows the seamless addition of aftermarket amplifiers into compatible vehicles, delivering audiophile-quality sound without compromising the vehicle factory fit, finish or features. This package includes a reusable OBD2 programmer to enable the Audi A2B amplified system to be compatible with the ZEN-V.

*Utilizing the same processing power as NAV-TV's competition proven M650-GM, the ZEN-V produces a completely flat audio output without any factory time delay or equalization, eliminating the need for summing devices, an audio correction DSP or the removal of the factory audio compensation microphones.*

The **ZEN-V produces a 12 channel analog output with a S/N Ratio of 112dB**. For vehicles with video playback capability, the **ZEN-V supports 7.1 and 5.1 audio[2]**.

*NOTE 1: The factory Audi MIB3 A2B amplifier must remain in the vehicle and connected.*

*NOTE 2: If the vehicle has motorized speakers, they will no longer motorize up and down.*

### Car Radio Versions

MIB3 with MOST 150 Connector at Radio

### ZEN-V and OBD Programmer Bundle Compatibility Chart

Model	Year Range	Version	Radio	Notes
Audi/Audi with MIB3 and A2B Amplifier	2020-2026	USA, Rest of World, Europe	MIB3 with MOST 150 Connector at Radio	
Audi/e-tron	2021-2026	USA, Rest of World, Europe	MIB3 with MOST 150 Connector at Radio
